Content Creation: Canva, ElevenLabs

Communication and Leadership: Communication, negotiation, problem solving, community building, leadership

EXPERIENCE

AI Lead | Safaari Hub

2025 - 2026 | Startup and co-working hub offering smart workspaces, conference facilities and business services

- Set up and led the AI automation office, delivering AI solutions to individuals and businesses.
- Built automation and digital solutions for 25+ individuals and businesses in 5 months, helping clients save time, grow and cut costs. Client inquiries rose steadily after launch.
- Designed, built and deployed full-stack web applications using Claude, ChatGPT, Google AI Studio and Grok, including prompt writing, output ranking and feedback (RLHF).
- Built and deployed custom Telegram bot systems for community management, notifications and operational workflows.

X Community Manager | Ritualnet

Mar 2025 - Sep 2025 | Volunteer / Contributor

- Grew the X community from 5 to 2,000+ members through regular posting, member engagement and outreach.
- Hosted weekly X Spaces (Ritual Hangout) covering project updates, events and community news.

Community Moderator and Collaborations Lead | Veefriends Alpha, Abstract Alpha, SharkDAO (now defunct)

2021 - 2025

- Managed hundreds of collaboration campaigns across multiple Web3 communities, mainly in the NFT space.
- Ran collaborations end to end: found and contacted upcoming NFT projects, negotiated spot allocations and set up raffles using Alphabot and Premint.
- Set raffle entry requirements, collected and checked winner data, and reported to partner projects in Google Sheets. This included data labeling and annotation: classifying, checking and ordering entries.
- Co-founded SharkDAO and used blockchain knowledge to create opportunities for members before the project closed.

EDUCATION

Master of International Studies and Diplomacy

Bayero University, Kano | 2021

Languages: English (Professional)
